Boil Water Notice, City of Poway, San Diego County

On 11/30/19 at 1807 hours, the California State Warning Center (CSWC) received a report from Cal OES Southern Duty Officer that the City of Poway issued the citywide boil water notification while water samples are being tested due to reports of discolored domestic water.

- The City of Poway is coordinating public messaging.
- Public notifications have been completed to the City's approximately 50,000 residence.
- The San Diego County Department of Environmental Health has notified restaurants of the boil water notice.
- State agency notifications were made by the CSWC.
- Works Department Operations Center (DOC) is activated.
- A Water Commodity distribution center is open at Lake Poway, 14644 Lake Poway Rd., Poway, CA.
- Testing and mitigation is underway.

Railcar Derailment, Carson, Los Angeles County, SPILL: 19-7661

On 12/01/19 at 1329 hours, the California State Warning Center (CSWC) received a report from Union Pacific Rail Road (UPRR) advising that four railcars derailed upright in the railyard. The cause of the derailment is unknown

- Three of the railcars were spine cars and one was a truck car.
- There was no release of hazardous release and no injuries to crew.
- CSWC personnel performed notifications per HazMat SOP.

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- An Avalanche Warning is in effect through 0700 hours Monday for portions of Alpine, El Dorado, Nevada and Placer Counties.
- Snow and rain showers will continue in the Sierra with moderate to heavy snow accumulating above 7000 feet.
 - The heaviest precipitation will remain north of Tulare County. The majority of this precipitation will fall Sunday.
- Late Sunday into Monday snow levels will rise to near or above major Sierra Pass levels.
 - Precipitation is still likely but will taper off throughout the day and into early Tuesday morning.
- Flash Flood Watch for the Kincadee Fire burn area and downstream locations through late Sunday night.
 - Rain will continue at least through early Monday.
 - Excessive rain rates and storm total amounts from 3 to 4 inches may trigger flash flooding over the burn area.

SOUTHERN CALIFORNIA

- A wet weather pattern will continue across the region into late next week as a series of weather systems move over the region.
 - The majority of the rainfall with this system will occur across San Luis Obispo County with significant amounts likely for the northwest portion of San Luis Obispo County.
- A Flood Watch is in effect for the Southern Sierra Nevada foothills and Southern Sierra Nevada below 7,000 feet through Monday afternoon.
 - Rainfall amounts of two to four inches are possible.
 - Substantial flooding is possible in the form of mudslides, rockslides, and debris flow.
- A Freeze Warning has been issued for Coastal Counties.
- Snow levels today will be between 3,000 to 4,000 foot range, then increase to over 5,000 feet tonight.
 - Snowfall accumulation is expected between 4 inches or less this evening in San Diego County.

WEATHER KEY POINTS

12/01/19 - 12/07/19

Sunday-Monday

- Significant precipitation and wind will continue across northern and central parts of California today through Monday
 - Significant rain (2.00-4.00") is expected across the Bay Area and over the southern Sierra foothills with strong winds persisting today
 - Brief heavy rain could lead to flash flooding and burn scar impact concerns, though impacts are not currently expected to be widespread
 - The burn scars which are being actively monitored for potential debris flows during this event are the following:
 - **Kincade (Time of concern: Now through Sun night), Ferguson (Time of concern: Today through Monday)**
 - Torrential rainfall will be possible below 7000 feet in the Sierra foothills through Monday evening
 - Winds will continue to be strong, especially across the Bay Area, where gusts of 45 to 55 mph are expected with the potential of higher wind gusts at times.
- Significant snow is expected again over the Sierras and far northern CA through Monday evening
 - Snow level will increase today to around 7000 ft
 - Interstate and highway passes will once again see significant snowfall

Tuesday-Wednesday

- Rain will become widespread along the Central Coast region Tuesday and Wednesday but no significant impacts are expected

Thursday

- No significant impacts are expected

Friday-Saturday

- The next weather system moves in from the west and will be monitored for any precipitation issues
